New MoReq standard for records managment under development - contribution phase commencing shortly

Oracle - Thursday, June 17, 2010.

The DLM Forum is creating a new MoReq specification, MoReq2010, and Oracle will be contributing to this.

We also highly encourage those of you in compliance, records management, and archiving (particularly those based outside the US) to participate in the development and review of the standard - the time commitment can be as little or as much as you please. The contribution phase is to commence this month with review planned in August.

The official announcement from the DLM Forum and details on how to participate are located here.

About Oracle

Oracle Corporation, an enterprise software company, engages in the development, manufacture, distribution, servicing, and marketing of database, middleware, and application software worldwide.

The company was founded in 1977 and is headquartered in Redwood City, California.
